Issue 1	HL	July 2012	November 2012	

Staff at Tasker Milward should wear smart business clothes suitable for the subjects which they teach, or areas where they work, enabling teachers of practical subjects to be comfortable in appropriate clothing (following Health & Safety guidelines).

Facial piercing is not appropriate for work as it can make it more difficult for others to enforce the removal from students. Any piercing / tattoos should be kept covered where practical.

Religious or cultural dress or symbols are acceptable as part of staff dress with due consideration to the needs of health and safety for high risk activities.
